Distribution Reinvestment Plan (DRP):

As a reminder, a Distribution Reinvestment Plan (DRP) is available to RF1 investors on the register as at the Record Date of 1 July 2022. The DRP enables investors to reinvest their distribution into new units in RF1. The DRP will consider the relationship between the prevailing market price of RF1 units and the Net Asset Value (NAV).

Where the prevailing market price is higher than the NAV, distributions will be reinvested into new units at the NAV price (that is, at a discount to the prevailing market price).

- For example¹, if the RF1 share price was \$4.00, and the RF1 NAV was \$3.50, investors who elected to participate in the DRP would be issued new units in RF1 at a price of \$3.50.

Where the prevailing market price is lower than the NAV price, distributions will be reinvested by purchasing units on market (that is, at a discount to the NAV).

- For example¹, if the RF1 share price was \$4.00, and the RF1 NAV was \$4.50, investors who elected to participate in the DRP would be transferred units in RF1 at the average market purchase price.

¹ Numbers used are for illustrative purposes only

The DRP election can be made via the Link Market Services' [Investor Centre](#) or by returning [the Distribution Election Form](#) to regalfund@linkmarketservices.com.au by the DRP election cut off date of Monday, 4 July 2022.

We thank you for your ongoing support of Regal and RF1.

Kind regards,

Brendan O'Connor
